EDUCATION

B.E. – Information Technology **2025 – 2029**
Atharva College of Engineering, Mumbai **8.8 CGPA**

Class XII **2024**
Elphinstone College **80.00%**

Class X **2022**
St. Xavier's High School **83.20%**

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, HTML, CSS, SQL
- **Frontend:** React.js, Vite, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Vercel
- **Authentication & APIs:** Auth0, REST API Integration
- **Core CS:** Data Structures & Algorithms, DBMS, OOP, Automata Theory

TECHNICAL PROJECTS

LoopLearn – DSA Revision Scheduler GitHub

- Built a DSA revision platform that tracks solved problems and schedules structured revisions using a spaced-repetition workflow.
- Implemented automatic revision cycles for the **next day, 3rd day, and 7th day** after solving a problem.
- Designed the system around concept-based revision to improve retention of DSA patterns rather than individual solutions.
- **Tech Stack:** React, JavaScript, Node.js, Express.js, Database

ESSENTIALS – Utility Web Application GitHub

- Developed a responsive utility web application combining multiple everyday tools into a single React-based platform.
- Implemented **3+ utility modules** including To-Do management, expense tracking, and gold/silver rate information.
- Integrated external APIs and built reusable React components with client-side routing for a responsive user experience.
- **Tech Stack:** React, JavaScript, Vite, REST APIs, CSS

KrishiConnect – Agricultural Marketplace Platform GitHub

- Developed an agricultural platform concept connecting farmers with mandi prices, verified buyers, logistics, storage, payments, and grievance services.
- Integrated government agricultural data to provide mandi price information and support data-driven selling decisions.
- Designed **6+ core workflows** covering authentication, multilingual access, market trends, lot grading, buyer offers, and logistics.
- **Tech Stack:** React, JavaScript, Node.js, Express.js, MongoDB, Auth0, REST APIs

ACHIEVEMENTS

- Secured **5th place among 65 teams** in the internal **Smart India Hackathon (SIH)** competition.
- Maintained an **8.8 CGPA** during the first year of B.E. in Information Technology.
- Participated in **Model Senate** as Chief Financial Officer (CFO).

POSITIONS OF RESPONSIBILITY

Model Senate – Chief Financial Officer (CFO) *2026 – Present*

- Managed budgeting and financial planning responsibilities for Model Senate activities and events.
- Coordinated resource allocation and supported financial management across organizational activities.
